

## Competition Camp - Troop Project

### *THE CHARIOT*

Hello all! This year as you may know we are going back to ancient Greece and Rome! There will be a lot of adventure during the weekend and you'll need to travel in style. You will be required to build and bring your very own chariot. Of course you will be following our guide lines and will be judged on the structure, safety and design of your creation.

#### **\*Remember when building, your chariot must**

- Seat 2 people (the passengers will be randomly chosen at camp)
- carry Eggbert at all times
- minimum length of 120 cm
- minimum width of 60 cm
- minimum height of 45 cm (from base)
- minimum 2 wheels
- realistic but creative

Your group must work together to transport the chariot and passengers along the camp paths. Supply head protection (Bike Helmets!) for ***all riders.***
